

## LE VU PHONG

**Address:** 7/30 Street No. 7, Ward 1, Go Vap District, Ho Chi Minh City.  
**Phone:** 0355743978  
**Email:** lephong29092909@gmail.com  
**Facebook:** <https://www.facebook.com/levuphong299/>  
**Github:** <https://github.com/vuphongle>

### CAREER OBJECTIVE

As a Software Engineering student, I aim to become a software development expert, focusing on building reliable systems. With expertise in Java, JavaScript, React.js, and mobile app development, I seek opportunities to contribute to innovative projects, particularly in distributed systems, while further developing my technical skills and problem-solving abilities.

### EDUCATION

#### INDUSTRIAL UNIVERSITY OF HO CHI MINH CITY

- Bachelor's degree in Software Engineering - Final Year Student - (2021-2025)
- **GPA:** 3.33/4.0 (Completed 133/156 credits)
- **Relevant Courses:** Java Programming, JavaScript Development, Mobile Development (React Native), Distributed Systems, Software Design, Data Structures, Software Testing, Event-Driven Programming with Java (3.8/4.0), Database Systems (4.0/4.0), Data Analysis Programming (3.8/4.0), Software Quality Assurance and Testing (3.5/4.0).

### SKILLS

- **Programming Languages:** Java, JavaScript (Node.js), Python (Pandas, NumPy, Matplotlib), HTML/CSS (Bootstrap, Tailwind).
- **Frameworks & Tools:** React.js, React Native, JQuery, Spring, Hibernate, GitHub.
- **Soft Skills:** Teamwork, Communication, Problem-solving

### AWARDS AND HORIZONS

Scholarships: Awarded three scholarships during academic studies.

#### Academic Projects & Recognition:

- **Karaoke Management System:** Technologies: Java Swing, SQL Server. Developed a karaoke management system with features like user management, role-based permissions, room booking, revenue statistics. Involved in design, programming, requirement gathering, and system testing to ensure smooth operation and efficient data handling.
- **Food Ordering Mobile Application:** Technologies: React Native, JavaScript, Firebase. Developed a mobile food ordering app with React Native, leveraging Firebase for user authentication, data storage, and image handling. Implemented features like user sign-up/login, storing food items and images, and ensuring smooth data flow between the app and Firebase.
- **Pharmacy Management System:** Ongoing project utilizing Microsoft Service, Docker, and other technologies. ([FE](#), [BE](#))
- **Chat Application:** In progress, working on a chat application using Spring Boot and React Native.

### HOBBIES & INTERESTS

- **Football:** Passionate about football, which helps me maintain a healthy lifestyle and develop teamwork, leadership, and strategic thinking skills.
- **Career Conferences and Networking:** Actively participate in job fairs and career conferences to expand my professional network, learn from industry experts, and stay updated on job market trends.
- **Knowledge Sharing and Technology Discussions:** Passionate about sharing experiences and discussing new technologies through seminars, forums, and meetups. I believe in continuous learning and collaboration with like-minded professionals.
